EDUCATION

Syracuse University, School of Information Studies, Syracuse, NY

May 2026

B.S in Information Management and Technology | Concentration: Project Management | GPA: 3.526

PROFESSIONAL EXPERIENCE

Project Management Intern – Marketing Strategy, Syracuse University, Syracuse, NY

September 2025 – April 2026

- Support the Strategy team in developing project plans and timelines, ensuring campaigns align with milestones and deadlines
- Collaborate with cross-functional teams to design and implement integrated marketing initiatives that advance University priorities, and assist with ad hoc research, analysis, and project support to maintain momentum
- Capture meeting notes, identify action items, and coordinate next steps to maintain project momentum
- Serve as project manager for a cohort-based internship program, coordinating a capstone group project to support integrated marketing initiatives

Data Curator, Sidearm Sports, Syracuse, NY

May 2024 – April 2025

- Utilized attention to detail to create and/or update athletes' datasets on schedules, rosters, news stories, photo galleries etc. on colleges athletic websites based on previous providers' information using a unique content management system
- Conducted quality assurance checks on developed websites to ensure data accuracy, functionality, and responsiveness, documenting issues and coordinating with supervisors on major discrepancies

SKILLS/CERTIFICATIONS

Certified Associate in Project Management (CAPM) – Project Management Institute (PMI)

- Earned: January 13, 2026 | Valid through: January 13, 2029

Programming Languages: HTML, CSS, SQL, Python

Software: MS Excel, MS Word, MS PowerPoint, MS Project, Trello, Figma, Adobe Illustrator, Adobe Workfront, SharePoint, Canva

PROJECTS

Project Management - Office Expansion Planning

- Created a project schedule using MS Project based on a case study of an office expansion, outlining tasks and timelines
- Developed a resource sheet to allocate team members and track costs effectively
- Constructed a Work Breakdown Structure (WBS) to define the project scope clearly

Innovation, Design, and Startups - Product Development

- Co-developed Fit Check, a clothing rental platform for college students, focusing on business casual and formal wear
- Conducted market research through surveys and interviews, identifying key user pain points.
- Designed a go-to-market strategy and presented the concept at the Social Impact Prize competition

LEADERSHIP

Events Coordinator – BeIT iSchool Undergraduate Club, Syracuse University

- Facilitate communication between iSchool staff, the executive board, and members while developing and executing workshops, guest speaker events, and networking opportunities that attract new members and enhance professional skills
- Collaborate with cross-functional student teams to plan event logistics, manage timelines, and ensure seamless execution of club initiatives

Events Coordinator – Women in Tech (WIT) Club, Syracuse University iSchool

- Coordinate and execute professional development, networking, and speaker events by collaborating with iSchool faculty, executive board members, and external partners to support and empower women in technology and business
- Drive event promotion and member engagement through targeted outreach and marketing efforts, increasing attendance and participation across club initiatives
